

2019 Forestry Workforce Roadshow

Te Uru Rākau
Forestry New Zealand

The Roadshow is key to government's continued commitment to working with industry to respond to workforce challenges and to build a strong, stable, and reliable forestry workforce.

The Roadshow will include information on:

- products and services available through Work and Income
- the Approval In Principle (AIP) process through Immigration
- things you can do to attract and keep staff
- an update from Te Uru Rākau.

It will also provide an opportunity for you to connect with your peers and to hear what's working for them when it comes to recruiting and retaining good employees.

The day will consist of a series of short presentations by government agencies in the morning, followed by a dedicated time to answer any questions. In the afternoon, a series of workshops will be run by representatives from each agency, providing you with the opportunity to gain more information in the areas you are most interested in. It's up to you which ones you attend.

If you plan to employ extra workers for next season, then this is the roadshow for you.

All Forestry employers and contractors are invited and warmly welcomed!

Time: 9.00am–4.30pm
(morning tea and lunch will be provided)

To Register:

Email date and location of the roadshow and any dietary requirements to:
teururakau@mpi.govt.nz
by Friday 25 October.
